Caution: Your structure is made from a high quality, rust resistant frame. In order to maintain peak condition, we recommend that it not be left unattended in high winds. WHEN NOT IN USE RETRACT THE COVER OR TAKE THE UNIT DOWN.

Securing Your Structure: It is very important that you SECURE YOUR STRUCTURE PROPERLY. Use all of the pegs (Q) provided with your structure and drive them into the ground as shown in illustration #7. Check the pegs periodically to ensure they have not loosened.

WARNING: Do not have fire or an open flame close to the fabric. Do not use your barbecue under the shade structure. Use of your structure over or near chlorine may cause the premature break down of your fabric and may void warranty.

5 Year Fabric Warranty: The warranty covers your fabric ONLY against UV degradation. It does not cover the frame or any other components.
