

Hampton Dining Table

1. Lay top (part A) up side down on the floor. (Use cardboard packaging to protect it from getting scratched)

2. Insert leg (part B) into corresponding hole from top (Part A). Then install nut (Part C) and washer (Part D). Finger tighten both nut (Part C) before fully tighten both nut (Part C) using wrench (Part E) as shown above image. Repeat step for remaining legs.

5. Turn the table upright. The table is ready to be used
